

Frontier Power is pleased to recognize its members for donating to the Frontier Power Community Connection Fund in 2024. Grants awarded through this program benefitted many organizations, making our communities a better place to work and live. \$40,925 from this fund was distributed to the community last year. Below is a list of all the groups who received grants from the Frontier Power Community Connection Fund.

In addition to our members donating to worthwhile causes, our employees recently contributed \$250 towards the local Christmas Castle project, with Frontier Power matching that. This helped children to have clothing and gifts for Christmas.
