

Commercial & Industrial Lighting

For Cooperative Members

UP TO
\$25,000
REBATE
FOR
COMMERCIAL/INDUSTRIAL
MEMBERS

FRONTIER POWER's Commercial & Industrial (C&I) Lighting Rebate Program helps replace inefficient internal and external lighting at member business facilities.

The Program provides a rebate based upon the number of lamp watts reduced when replacing old lighting with new, energy-efficient lighting, and members are eligible for the rebate when specifications are met.

SPECIFIC REQUIREMENTS:

This program is applicable to commercial and industrial business facilities only. Residential members are not eligible.

To qualify, lighting at the facility must be used a minimum of 1,800 hours per year. All projects must be a retrofit interior or exterior lighting installation. All equipment must be new; used or rebuilt equipment is not eligible.

An on-site visit is required to confirm installation of the project. Projects must be installed and completed between July 1, 2021 and June 30, 2022.
